PRESS RELEASE

SEMBCORP MARINE DELIVERS A DOUBLE DIGIT 1Q 2008 GROWTH

- **PATMI grew by 24% to \$91 million in 1Q 2008**
- **EPS, Basic increased by 23% to 4.41 cents**
- **Annualised ROE (excludes AFS Reserves) at 29.2%**

Singapore, May 7, 2008 : Sembcorp Marine today reported a 23.9% growth in PATMI from \$73.7 million in 1Q 2007 to \$91.3 million in 1Q 2008. Group turnover for 1Q 2008 decreased by 3.9% from \$953.7 million in 1Q 2007 to \$916.1 million in 1Q 2008 primarily because of the timing difference in the recognition of revenue from the rig building contracts. However, this is offset by the higher revenue recognised from the ship conversion/offshore and ship repair businesses.

Group operating profits increased by 7.2% from \$74.1 million in 1Q 2007 to \$79.5 million in 1Q 2008. Group pre-tax profits increased by 36.0% from \$84.7 million in 1Q 2007 to \$115.1 million. The increase is mainly attributable to higher operating margins from rig building and ship repair businesses and better contribution from associated companies.

Excluding net non-operating items and prior years' under/over-provision of tax, Group attributable profits increased by 32.4% to \$91.3 million.

OUTLOOK

The Group has a net order book of S\$6.6 billion with completion and deliveries stretching till 2011.

Based on the scheduled completion of these projects, the Group expects FY 2008 to be a better year than FY 2007.

The fundamentals for the offshore market are expected to remain strong, due to the positive growth in the global demand for oil and gas resulting in sustained high oil prices supporting continued exploration and production activities.

Demand for rig building continues to be strong with demand trending towards deepwater rigs. The positive outlook for the offshore production market will see increasing demand for fixed and floating production systems, including Floating Production Storage and Offloading (FPSO) units.

Ship repair business is expected to remain strong driven mainly by higher consumption of oil and commodities in Asia amid fears of a US slowdown. Continuing demand for ship repair and dock space booking will benefit the Group.

The Group continues to benefit from the expected growth in all these sectors.

QUARTERLY REVENUE (2003 to 1Q 2008)

- The lower 1Q 2008 revenue was attributable to the timing difference in the recognition of the revenue from the rig building contracts. This was offset by the higher revenue recognised from the ship conversion and offshore and ship repair businesses.

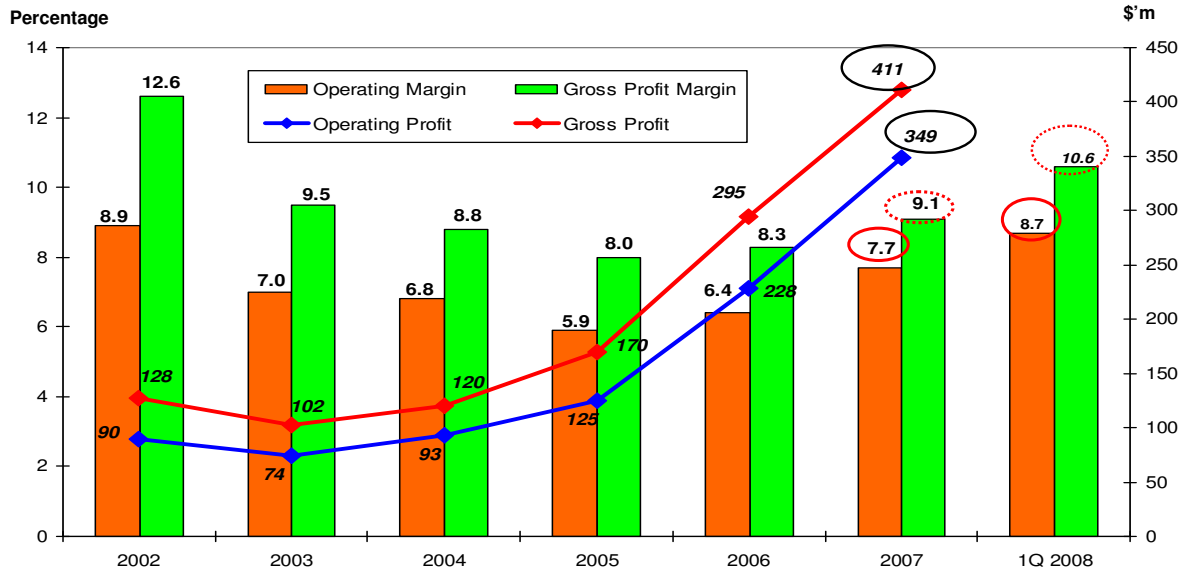

QUARTERLY PATMI (2003 to 1Q 2008)

- A 24% growth in PATMI at \$91 million in 1Q 2008 as compared with \$74 million in 1Q 2007
- A record first quarter as compared with all previous first quarters

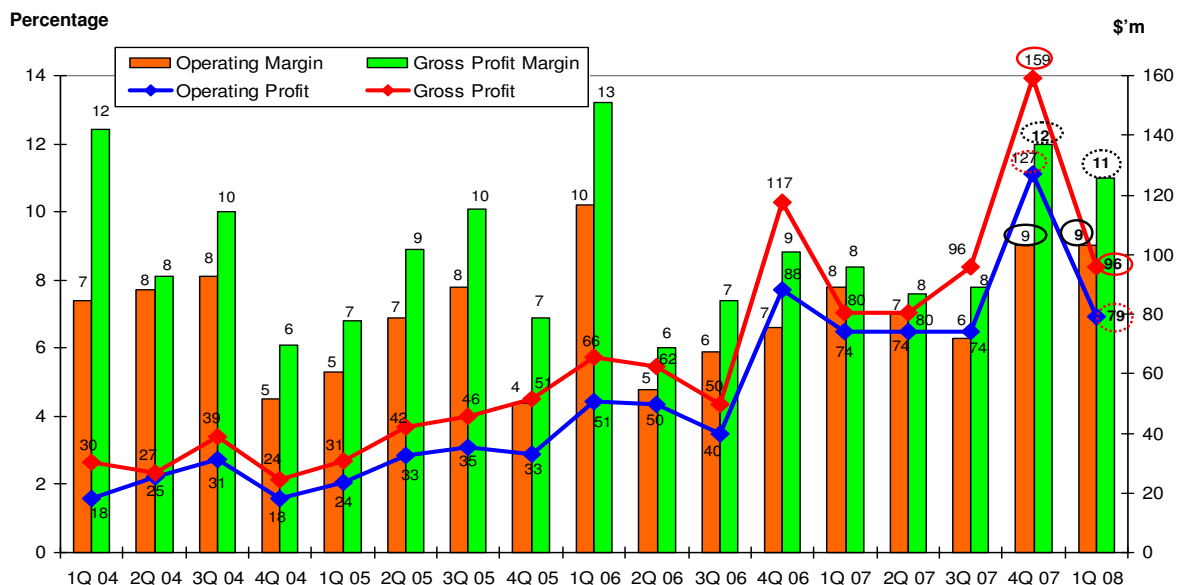

OPERATING MARGIN & OPERATING PROFIT

- Further Operating Margin expansion for 1Q 2008 with Gross Margin at 10.6% and Operating Margin at 8.7%
- FY 2008 Operating Margin & Operating Profit expected to gradually trend upwards compared with FY 2007

QUARTERLY OPERATING MARGIN

- Lower \$ margin in 1Q 2008 due to lower PoC (percentage of completion) revenue recognition
- Quarter-to-quarter Operating Margin and Operating Profit may vary due to the product mix and timing of revenue recognition.
- Year-on-year is expected to trend upwards
