Sembcorp Marine rewrites record for highest number of LNG ship repairs and upgrades

Company has 34 LNG vessel repair and upgrade projects in 2015, achieves highest number in the global market for fourth consecutive year

Singapore, Dec 8, 2015: Sembcorp Marine, a global leader in LNG ship repair and life extension work, has rewritten the industry record for the highest number of LNG vessel repair and upgrade projects in a single year.

The company tops the list for the fourth year running, securing a total of 34 such projects in the global market.

Sembcorp Marine Executive Vice President and Head of Repairs & Upgrades Wong Lee Lin credits long-term partners and customers for the company's continued success.

"We are very privileged to work with leading LNG ship owners and operators who, over the years, have put their faith in our holistic solutions, integrated facilities and dedicated project teams," she said. "Their trust has encouraged us to exceed expectations consistently and in turn strengthen our track record from year to year. As a top LNG vessel repair and upgrade specialist, we are also proud to be contributing to Singapore's status as a global LNG hub."

Last year, Sembcorp Marine repaired and upgraded 32 LNG vessels at its Admiralty and Tuas Boulevard shipyards, up from 27 in 2013.

Notes to Editors
