

Naming of Latest Fleet Addition – State-of-the-art LNG Bunker Vessel FueLNG Venosa

Ulsan, 21 April 2023 - FueLNG, a joint venture between Keppel Offshore & Marine Ltd¹ and Shell Singapore Pte. Ltd., has named its newest addition to the fleet, the LNG bunker vessel FueLNG Venosa, at a ceremony held today at the Hyundai Mipo Dockyard Co., Ltd., in Ulsan, South Korea.

Ms Aw Kah Peng, Chairman of Shell Companies in Singapore, who is the godmother of the vessel, said, "The FueLNG Venosa will support a growing number of LNG-fueled ships that call at the Singapore port, contributing to the country's ambition of becoming a regional hub for LNG bunkering. As an industry, we must work together towards reducing emissions from shipping, and LNG is a key enabler in this transition."

Built in Hyundai Mipo Dockyard Co., Ltd. and chartered from Korea Line LNG Co., Ltd., the FueLNG Venosa is a state-of-the-art LNG bunker vessel with a total capacity of 18,000 cbm, bringing significant economies of scale. The vessel is designed to facilitate safe and quick turnaround of vessels carrying out simultaneous cargo handling and bunkering operations; and is capable of bunkering different types of LNG fuel tanks. Besides bunkering operations, FueLNG Venosa shall provide gas-up and cool-down services to LNG carriers and LNG-fueled vessels after dry docking in Singapore or enroute to loading operations.

Mr Saunak Rai, General Manager of FueLNG, said, "We are thrilled to add the FueLNG Venosa to our fleet, which will help us cater to the growing demand for LNG bunkering services in the Asia Pacific region. The FueLNG Venosa will further enhance our capability to provide our customers with safe, reliable, and efficient LNG bunkering solutions."

¹Following the completion of the Proposed Combination of Sembcorp Marine Ltd (Sembcorp Marine) and the restructured Keppel Offshore & Marine Ltd (Keppel O&M) on 28 February 2023, Keppel O&M is now a wholly-owned subsidiary of Sembcorp Marine.

The naming of the FueLNG Venosa marks another significant step in FueLNG's efforts to promote the use of LNG as a marine fuel and contribute to a more sustainable future for the shipping industry.

Celebrating the naming success: (From left to right) FueLNG's General Manager Mr Saunak Rai, Korea Line LNG's Senior Vice President (Business) Mr Yeon-Sung Bae, as well as Hyundai Mipo Dockyard's Senior Vice President (Management) Mr Euisung Yoon and Senior Vice President (Production Management) Mr Heung-Won Seo, commemorating the naming of FueLNG Venosa

About FueLNG

FueLNG, a joint venture between Keppel Offshore & Marine Ltd and Shell Singapore Pte. Ltd., is committed to providing safe, cost-efficient, and reliable solutions in Liquefied Natural Gas (LNG) bunkering in Singapore. FueLNG is able to provide LNG bunkering to a wide variety of vessels through truck-to-ship or ship-to-ship bunkering.

Awarded the LNG bunker supplier license by the Singapore Maritime and Port Authority in 2016, FueLNG works with industry partners to build a world-class LNG bunkering network and encourages the adoption of LNG as a marine fuel.
